

Eder España
Architect

• About me

- Architect with experience in BIM / Revit system, specialized in the development of basic and executive architecture projects. Advanced level working with families and development of plans in collaborative works with linked files. I also make infographic presentations of renders and assemblies for competitions and seek the interoperability between the parametric world of Rhino / Grasshopper and Revit / Dynamo.

• Education

UB – Universitat de Barcelona (Now-2022)

- Master – BIM Management and Integrated design

CAUP – Tongji University 同济大学

- DMD – Dual Master Degree – M. of architecture

ETSAB – Polytechnic University of Catalonia

- MArch – M. of Advanced Studies in Architecture

Univ. UNIME - Metropolitan Union of Education and Culture

- Bachelor of architecture and urbanism

• Experience

2020-Now	<u>Architect / BIM modeler-coordinator</u> - Bimplicity - Development of executive Arch., MEP and Structure projects
2019-2020	<u>Architect</u> - TEC4 Engineering Company - Development of an executive project for the architecture and structure design of the Riyadh m. station
2019	<u>Architect / BIM modeler</u> - Exedra architects - A resort project developed in Portugal passing the executive and construction fases.
2018	<u>Architect</u> - Mediapro Company - Project developed in China going through the SD and DD stages
2017	<u>Architect colaborator</u> - studio SEED / Design studio - Development of parametric designs
2016-2017	<u>Architect</u> - Tongji University / Design Studio of Prof. Ercument Gorgul
